

Job Vacancy: Diesel Fitter

Prior Power Solutions is seeking a Diesel Fitter to join the Engine Service department in Great Yarmouth.

We have a wide customer base covering industries from standby power to marine comprising everything from ongoing service contracts to emergency breakdowns.

We are looking for a proactive Diesel Fitter with a can-do attitude. You will be working in a busy and often rapidly changing environment to support our customers' needs and therefore you will need to be flexible and work co-operatively with the Engine Service Team to undertake engine/generator repairs and maintenance.

Whilst not the primary role of this position, candidates also with experience with generators and associated electrical components would be greatly welcomed.

This position would also suit HGV/plant fitters looking to change their career paths into the industrial/marine/offshore sectors.

This is a full time, permanent position in Great Yarmouth with immediate start.

Reporting to: Service Manager

Main Responsibilities & Duties:

- Service, repair, and overhaul of diesel engines.
- Work with the Service Co-ordinators to source and procure replacement parts and accessories
- Undertake diagnostic investigations to fault-find.
- Install and commission engines.
- Carry out all work in accordance with manufacturer and industry standards.
- Comply with company procedures, policies and training required.
- Ensure work area is kept tidy
- Carry out any other reasonable task that the company may require to meet operational requirements from time-to-time.

Qualifications/Skills Required:

Essential

- Previous experience working on engines (including but not limited to: Cummins, CAT, Perkins, MTU, Detroit and Volvo Penta)
- Full UK driving licence
- Working without supervision
- Excellent time management
- Proven mechanical and/or electrical fault-finding capabilities

Desirable

- Previous experience of working on marine engines, diesel generators and associated components
- Ability to read and understand technical drawings/schematics
- Good communicator
- Basic use of Microsoft Office (Word, Excel, Outlook)
- Confident liaising with customers
- Offshore qualified

Job details:

- 🕒 40 hours/week, 07:00-15:30 Monday-Friday
- 📍 Workshop based (Great Yarmouth) with occasional possible travel to customers' sites.
- 🚗 Onsite car parking
- 🏠 Company pension
- 💰 Salary dependant on experience

Why work with us:

Prior Power solutions is a leading supplier of specialised diesel-driven, alternative, and sustainable power systems, equipment, and services to a wide range of industries including oil and gas, marine, renewables, mining, agricultural, and construction.

We have an international reputation for high quality design, manufacture, and servicing of a wide range of hazardous area equipment, particularly well service equipment including nitrogen pumps, specialist skids, coil tubing and compressor units for the offshore industry.

We are providing our customers with power solutions for a changing world – at the cutting edge of new electric-driven and hydrogen introduction equipment technology.

Established in 1980, the company is now owned by HitecVision, Norway's largest private equity investor and is part of the Moreld group of companies under HitecVision's portfolio, representing 3,000 employees globally.

We are ISO 14001, 45001 and 9001 certified.
